

# Talks and Booksignings by author Carol Fitzpatrick

About Fitzpatrick's presentation style:

Fitzpatrick is a masterful story teller of a global village, one where all beings are truly created equal; where solar power fuels cars, free energy is abound and jobs are more like play than work. Can you imagine it? If you can, then you are one of growing numbers who have already connected the dots. We really can create the reality we so desire. Fitzpatrick not only tells you how, but leads you on a journey to your future then asks you to imagine that future now.

Fitzpatrick weaves each presentation into a dramatic unfolding by reflecting back to listeners their own story as told by someone who walks their talk. No one can truly step into another's shoes, but through her "been there done that" approach to life, she speaks her truth, which invites listeners to open their heart so that barriers come down, which invites change to come inside.

Her presentations cross all cultural, religious, political, social, economic, boundaries while creating a unified field among her audience, a language for healing and transcending any breach. Threaded throughout all her talks, is a movement of spirituality that transcends religion/religious affiliation, especially for those transitioning out of traditional structures and into new forms.

*"[A Call to Remember provides us with] a very enlightened and guided tour of our global shift in consciousness...a must read."*

**Malia Scanlan, Global Designs, LLC**

**ABOUT THE AUTHOR:** **Carol Fitzpatrick** is a visionary, a modern-day mystic who has been teaching and mentoring new paradigm leaders for the past 25 years. Her message of "follow your heart, change the world" has evolved from a grassroots wake-up call into an international movement. Her newest book, **A Call to Remember**, published by O-Books, was released in October 2008.

**"Captivating, and experiential, A Call to Remember is the ultimate spiritual empowerment tool for calling forth a better way of life—and for building a global village."**
